Streamline your Air Freight Forwarding operation with FreightOne

Solutions for Air Freight Forwarding Management

- FreightOne is engineered using Microsoft SQL Sever for maximum performance and reliability. Technology continues to change rapidly. FreightOne uses the latest technology and we are constantly modifying FreightOne to take advantage of new development tools.
- FreightOne is Modular. Licensing and pricing is based on the number of users and modules. This makes FreightOne scalable at both ends of the spectrum. Conversely, FreightOne's technology platform delivers an efficient enterprise solution to large operations with hundreds of users.
- FreightOne is a solution built for forwarders. All modules have a consistent look and functionality. The workflow follows a logical progression of moving freight. Freight professionals who understand logistics commerce will find FreightOne user-intuitive.

Fully Integrated with "IATA Print System"

- FreightOne is also FULLY Integrated with our "IATA Print System" in IATA Label Printing Process. No Need Double Input so as to streamline Operations and improve Accuracy.
