

M72 Digital Keyboard PDA

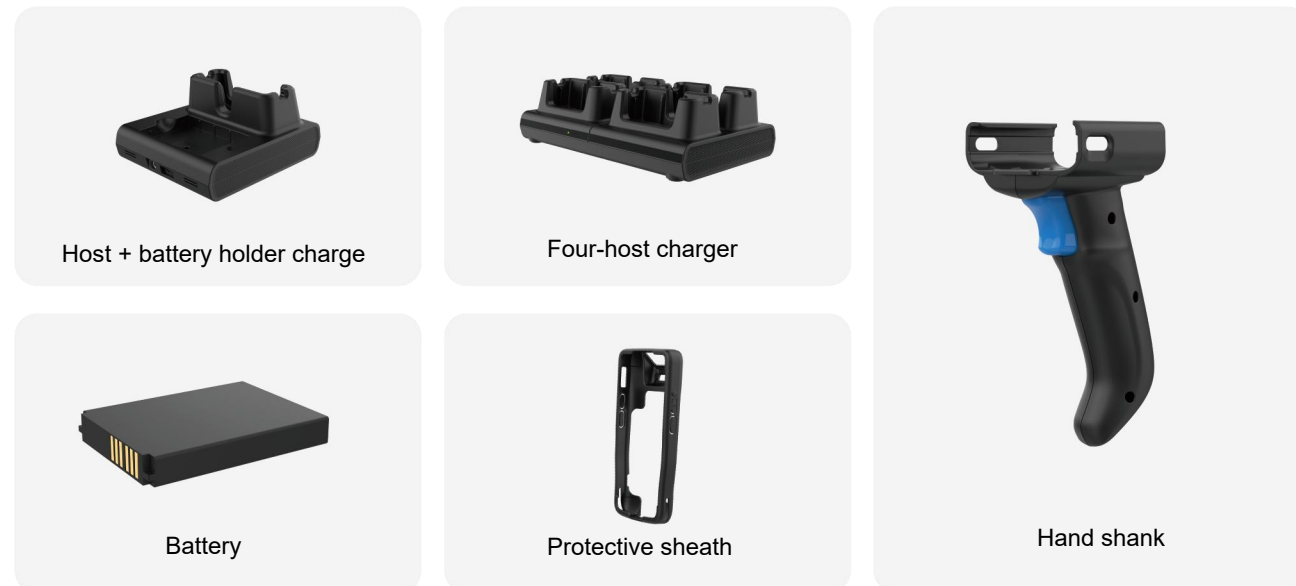

Unique Product Characteristics

- 45 degree tilt scan window to meet more application scenarios
- Double horn design, fear not noisy environment, more than 100db
- Increase the "Enter key", the operation is more convenient, one million times without wear
- Dual camera engine, intelligent switching distance; Three-color lighting, Solve the reading problem under different color bar code combination
- Large-capacity battery with ultra-low power consumption, 2.5 hours of fast charging, 18 hours of ultra-long working time, 42 days of standby

Scanning Performance

- A new generation of binocular two-dimensional image scanning head, ultra long DOF design, both short and long range scanning code
- Datalogic decoding technology and algorithm authorization were used
- Optical grade precision scanning mode
- 20-speed scanning lighting to adapt to different environments

optional accessory

Industrial protection

- IP67 industrial protection rating
- One - piece magnesium - aluminum alloy battery compartment, continuous charge when falling and flipping impact
- The overall structure design of plate groove ensures the overall fuselage is thin and light
